

## ***Important Notice About Your Prescription Drug Coverage and Medicare***

---

**This notice is intended for employees who are Medicare eligible or who have Medicare-eligible dependents. It is being sent to everyone for completeness.**

**If you or your dependents are not eligible for Medicare, i.e., because you are not age 65 or disabled, please disregard this notice.**

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage through your employer and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. Lake Erie Regional Council has determined that the prescription drug coverage offered by your School District Group Health Plan is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is considered Creditable Coverage. **Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.**

---

### **When Can You Join A Medicare Drug Plan?**

You can join a Medicare drug plan when you first become eligible for Medicare and each year from **October 15<sup>th</sup> through December 7<sup>th</sup>**.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

### **What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?**

If you are an active employee or dependent eligible for Medicare and decide to join a Medicare drug plan, your current coverage will not be affected, i.e., the Medicare Part D coverage will pay as secondary to the active plan. If you are a COBRA beneficiary or the dependent of a COBRA beneficiary, the Medicare Part D coverage will pay as primary to the active plan.

Keep in mind that your current coverage through LERC pays for other health care expenses in addition to prescription drugs. **LERC covers medical and prescription drug benefits as one plan. If you choose to enroll in a Medicare prescription drug plan, you will still be eligible for medical and prescription drug benefits from the Lake Erie Regional Council Plan. In other words, you cannot drop the prescription portion of your plan and retain the medical coverage only.**

If you do decide to join a Medicare drug plan and drop your LERC medical and prescription drug coverage, be aware that you and your dependents may not be able to get this coverage back until the next open enrollment period.

### **When Will You Pay A Higher Premium (Penalty) to Join A Medicare Drug Plan?**

You should also know that if you drop or lose your coverage with LERC and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without creditable prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen

months without coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
