A yellow dot and fraction indicates partial attendance has been submitted. A green dot indicates attendance has been submitted.

Note: The yellow dot and fraction only appear if (1) the class is set to record attendance for each meeting separately and (2) partial attendance has been taken. As attendance is taken for each period within a class, the fraction reflects those changes: the number of period attendance has been taken vs. the number of total periods. Once attendance has been taken for all periods within a class, the attendance indicator appears green.

On the Seating Chart, you can combine layouts in order to take attendance for multiple sections. For more information, see *How to Combine Seating Chart Layouts*.

Note: Class sections that meet more than once a day display a pop-up menu next to the **Single Day** (chair) icon, which allows you to select the specific period in which to record or change attendance.

Seating Charts

The Seating Chart provides you with a graphical representation of your entire classroom. You can design multiple layouts to help you manage your classroom. Using these layouts, you can record attendance, or use the Random Student Selector to help you call on different students during class discussions. You can also combine different layouts in order to take attendance for different sections.

Seating chart layouts allow you to have multiple seating chart options, and provide you with tools to change student seats instantly, without rebuilding a new layout. Create new layouts from existing layouts from current or previous terms, or keep the current layout configuration but change student seat assignments. You can remove and add students individually to layouts, or populate a blank layout solely for the purpose of taking attendance using a seating chart.

Seating Chart Modes

You can work with the Seating Chart in two modes: Seating Chart and Seating Chart Design. Use Seating Chart mode to take attendance and randomly select students on screen. Use the Design mode to create and modify layouts.
