Requesting Space Available transportation for: AM only ____ PM only ____ AM & PM ____

I understand that under the current Board of Education policy, my child/children do not meet the eligibility requirements for transportation services, however I am requesting that if there is space available on the bus route that my child/children be approved for transportation to/from their school of attendance via school transportation. I understand that if this request is approved, my child/children will be assigned to an existing bus stop on an existing route, and that a bus will not be rerouted nor a stop added for my child/children. I also understand that if additional students who qualify for transportation are added to this route, it may become necessary for my child/children to be removed from the bus route so other students who qualify may be added to the route.

This request is valid for the current school year only.
